

Mustafa Aydar

Full-Stack Web&Python Developer

I am passionate about developing and learning new technologies and things to help businesses grow. I am a good team member and developer because I am patient and hard-working and worked/led with a team for many years. In addition, I am a trustworthy man with a happy family life and 10-year successful career at Turkish government. I am looking for an opportunity to further develop my skills, to develop stunning projects, to add value to a team and company.

Software Projects

- **Developer Connector (<https://still-ridge-67283.herokuapp.com/>)**
2019.10- 2019.12
Social Network for developers to share posts and get help from other developers. As part of a team of 12 junior developers I contributed to a Web Application using MongoDB, Express.js, React, NodeJS and Redux technologies.
- **E-Commerce (<https://react-reserve.now.sh/>)**
2020.03 - 2020.04
E-Commerce to check products, add to cart, order with payment. It is a Web Application using MongoDB, Express.js, React, NextJS and React Semantic UI technologies.
- **Real Estate (<https://djangorealestatemustafa.herokuapp.com/>)**
2020.04 - 2020.05
It is a Real Estate project with an admin area to manage resources including property listings, realtors and contact inquiries. It is a Web Application using Python, Django, PostgreSQL, Bootstrap technologies.
- **Student Success Project**
(<https://www.kaggle.com/mustafaaydar/student-success-project>)
2019.10- 2019.11
It is a data analysis and visualisation project. Python, Matplotlib, Pandas, Numpy technologies used.
